

1. In the System Tray look for the Green shield with a white check. This is the VPN client.

2. Single click on the VPN client icon and click **Connect to "BAC-Primary"**

3. Enter your BAC computer login username and password and click **Connect**

4. Once connected, the FortiClient logon screen will disappear in the System Tray and you will see a yellow padlock on the green shield. You are now successfully connected to the VPN client.
